

YAMAHA RHINO 2" FRONT RECEIVER

Receiver Part # 100592
Hardware Kit: HK-045

Kit Components:

Qty.	Part Description
1.....	Receiver Hitch
1.....	Spacer Bracket
2.....	3/8"-16 x 1.25" Flange Bolt
1.....	3/8"-16 x 1.50" Flat HD Bolt
2.....	5/16"-18 x 1.25" Flange Bolt
2.....	5/16" Nylock Nut
2.....	5/16" SAE Flat Washer

INSTALLATION INSTRUCTIONS:

1. This kit will not work without the purchase of the KFI Yamaha Rhino Winch Mount #100550.
2. Place the receiver hitch into location as shown. The receiver hitch will fit under the lip that is on your Rhino.
3. Place the spacer bracket into location and line up the holes as shown.
4. Place the winch mount (not included) into location over the receiver and spacer as shown and line the holes up.
5. Run the 3/8" hardware through the outer holes on the winch mount, through the Rhino frame and then through the receiver plate as shown. (Note: you may need to use the supplied flat head bolt in substitute of the standard bolt due to clearance issues on certain winches)
6. Run the 5/16" hardware through the back holes of the Winch Mount plate, through the spacer plate and then through the receiver plate as shown in Figure 1.
7. Tighten all bolts and if you are installing a winch proceed with the instructions that came with the winch mount.
