*“Figure 1” Exploded View*

**INSTALLATION INSTRUCTIONS:**

1. Remove 1 1/4" receiver hitch or attachment if currently installed, so the 2" receiver can be installed.
2. Place the 2" receiver over the factory receiver. Install the supplied 1/2" bolt (A) through the pin hole and the two M10 flange bolts (B) into the factory threaded holes on each side of the receiver (C). (see figure 2 & 3)
3. Tighten all hardware.
4. Do not exceed recommended tongue or towing weight.
