

JOHN DEERE 835 & 865

Winch Mount

PART # 101660

Kit Components:

Item #	Qty.	Description
1	1	Winch Mount
2	1	HK-031

INSTALLATION INSTRUCTIONS:

Note: This winch mount is only designed for WIDE winches with a 4-Hole bolt pattern of 3.00" x 6.60"

1. Place winch mount (1) inside of bumper location (A) Shown in [Figure 2](#).
2. Line up winch mount (1) with the OEM holes (A) in the bumper. Shown in [Figure 3](#).
3. Place winch on top of mount and fasten down using the hardware provided with your winch as shown in [Figure 1](#).
4. Attach your fairlead/hawse to the mount (1) mount using hardware provided in location (B) with your winch.
5. Using the instructions provided with your winch, wire accordingly.

NOTE: Mini-Rocker Switch Hardware kit (HK-031). This allows you to mount your usual handle bar mounted switch to almost any desired location.

- Remove handlebar mount hardware from the switch.
- Locate desired mounting location
- Mark and drill two switch holes through dash using switch housing as a template
- Drill a 3rd hole for the switch wiring.
- Assemble per below using HK-031 hardware.
